

Men Only

This exhibition highlights those things men do; from the daily ritual of dressing and shaving to participating in a number of recreational pastimes and pleasures.

It also honours the skills, hard work, dedication and sacrifices men have made for their families and this country.

Whether it be hunting for food, working the land, surviving the depression or fighting in the many wars.

Men to have played a dominant role in sports such as boxing, cricket, football, rowing, wood chopping and cycling; just a few of the sports which are featured in our “Men Only” exhibition. Exhibition dates: 5th August – 7th September
